About NRCEM

The Network for Research into Chinese Education Mobilities (NRCEM) is a cross-disciplinary research community for disseminating cutting-edge research updates and opportunities in all areas of Chinese education mobilities. We understand 'Chinese' and 'education mobilities' in a broad sense. Please refer to our categorisation of forms of Chinese education mobilities here and here.

The NRCEM is the continuation of our highly successful Sociological Review Foundation Seminar Series on 'A Sociology of Contemporary Chinese (Im)mobilities: Educating China on the Move'. This seminar series has not only attracted renowned and emerging scholars to present their cutting-edge research on various forms of and issues around Chinese education mobilities, but also gathered synergy of a community of scholars from different parts of the world interested in this important field of research and scholarship. To take this seminar series further, we have decided to establish this Network (NRCEM) to carry out networking and research events. Please subscribe to our mailing list by sending an email to chineseedmobilities@outlookcom.

Communication

Are you looking for research collaborators? Are you looking for hosting institutions in China to conduct your fieldwork? Get in touch with us (chineseedmobilities@outlook.com) and we will advertise your requests.
